FROM: Arizona Coalition Against Domestic Violence

PRESENTER: Allie Bones/Shannon Rich

DISCUSSION: During the Coalition's 2012-2016 Strategic Planning Process, one of the areas of intense discussion from the community was with regards to systems issues in the courts. Many of the things that were recommended were not items that the Coalition can do directly or has much control over. Instead of putting all of the recommendations in our strategic plan, we instead created a white paper that outlines the recommendations and thoughts from the community regarding systems level changes needed in the courts in order to better protect victims of domestic violence and hold those who abuse responsible.

RECOMMENDED MOTION: Information only.
